### Area of Application:

Armor Rust Remover is suitable to be used for locks, hinges, electric contacts, pins, and more.

### Application:

Shake the Armor Rust Remover well before using, then spray the parts to be treated.

### Consumption:

Depends on the contamination level.

### Reaction Time:

Depends on the contamination level.

### Technical Specifications:

|   |                             |                                   |
|---|-----------------------------|-----------------------------------|
| 1 | <b>Physical state</b>       | aerosol                           |
| 2 | <b>Color</b>                | yellow                            |
| 3 | <b>Odor</b>                 | Characteristic                    |
| 4 | <b>Ignition temperature</b> | -200 °C                           |
| 5 | <b>Density @68°F</b>        | 0.705 <i>gg/ccmm</i> <sup>3</sup> |
| 6 | <b>Solvent Content</b>      | 85.5%                             |
| 7 | <b>Water Resistance</b>     | Resistant                         |

### Health and Safety

Based on available information, this product is not expected to produce adverse effects on health when used for the intended application and the recommendations provided in the Material Safety Data Sheet (MSDS) are followed. MSDS's are available upon request through your sales contract office, or via the Internet. This product should not be used for purposes other than its intended use. If disposing of used product, take care to protect the environment.
